The Teams sheets will show the judge’s mark but not the comments, these will be on the paper copy from the ring, the placings in the first two columns are only “pending” until the team scores can be checked in the office – the final placings will be posted on the overall pointscore.
6. Dressage results show the judge’s mark but not the judge’s comments these will be on the paper copy, there are two columns per rider, but only one score – the two columns are there to double check the data entry. Final placings will be posted after all tests have been entered and checked – this may not happen until Sunday morning.
7. Jumping – for those that would like to know their times for the first round (especially E & D Grade riders) you will be able to see your times soon after the rider has jumped their round – again riders will not be placed until all riders have jumped.
8. Sporting – these sheets will be uploaded Saturday night – on the sporting sheets you will be able to see each riders times and pending placings – placings can’t be finalised until all riders have competed that event in their age group.

Overall pointscore will be posted at intervals throughout the weekend.

YOU WILL ONLY BE ABLE TO VIEW THE RESULTS.

PLEASE NOTE: If the screen doesn’t update, the best thing to do is close the sheet you are looking at and re-open it as the screen needs to refresh
