*Looking forward to seeing you, best wishes to all the competitors, have a great day & travel safely.*

### Definition of Utility Station Hack

In the Utility Station Hack class, the Judge is looking for a horse that a station hand would use around a station or property. The horse should be able to work stock and allow the rider to carry a raincoat, jump a small obstacle.

The horse should have athletic ability, an excellent temperament and be able to complete the activities in a relaxed and calm manner. The horse should be able to walk at a good pace on a light rein in competition. The pattern could include: walk, trot, canter, gallop, lead changes, stop and back up. The following items may be included in the working pattern: gate, raincoat, small jump. The judge may request part of the pattern to be ridden one handed.
